DENZEL MALIK IBRAHIM

COMPUTER SCIENCE UNDERGRADUATE

Indonesia

LANGUAGE

- English
- Indonesia

EDUCATION

BINUS University
2023 - 2027
Computer Science Major, Intelligence System (AI) Streaming Program

SMAN 1 Ngamprah
Kab. Bandung Barat
2020 - 2023
Science Major

EXPERIENCE

- **Developed a Web-Based AI Chatbot for Career Consultation**
  - I use a prompt-tuned Gemini open-source model as the base LLM chatbot.
  - Website can be accessed here: https://nextpath.my.id/
- **Developed an AI to Predict Stroke Risk based on Symptoms**
  - Using several ML & DL architectures to make an AI model to predict stroke risk based on symptoms.
- **Developed an AI to Forecast Bitcoin Price**
  - Using Recurrent Neural Network (RNN) architecture, I made an AI model to forecast Bitcoin (or any other assets) future price based on it's previous 'open' price.
- **Developed an Automatic Speech Recognition Model to Transcript and Summarize Lecture Audio**
  - Using fine-tuned Whisper model, I made an transcription and summarizer model for lecture audio into a text-based file.
- **Developed a Deep Learning Model for Breast Cancer Image Classification**
  - Using Transfer Learning method with MobileNetv2, I made an image classification model that has 99% accuracy and very few False-Negatives.

EXPERTISE

- Artificial Intelligence
- Machine Learning & Deep Learning
- Data Science
- Public Speaking
- Creativity
- Digital Marketing
- SEO Optimization
- Content Creating
- Event Management

SKILL

English	95%
IT & AI (ML & DL)	90%
Davinci Resolve & Capcut	90%
Canva	90%
Public Speaking	98%
Internet Knowledge	95%
Microsoft Office	100%

EXPERIENCE

- **Squarespace Web Design (2022 - present)**

Conceptualizing visuals based on requirements, Designing a Landing Page and a Profile Website of a Management Consultant Company.
Staying up to date on the industry.

  - Website UI Designer for PT Artemy Visi Mandiri Bersama's Landing Page

- **Bina Nusantara Computer Club (BNCC) @Bandung Activist (2023-2024)**
  - External Event Organizer Staff
  - Studi Banding BNCC x CCI
    - Head of Event Division
  - BNCC Techbinar 2024
    - Secretary (Vice Project Manager)
  - BNCC Techblast 2024
    - Project Manager

- **Bina Nusantara Computer Club (BNCC) Elite Team (2024)**
  - Business IT Case Team Division

- **BINUS Talent for Photography & Content (2024)**

COMPETITION EXPERIENCE

- **3rd Place Winner on IT Fest 2024 at Universitas Brawijaya**
  - Business Case Team
- **Semi-finalist on I/O Fest 2024 at Universitas Tarumanagara**
  - Business Plan Team
- **FindIT! 2024 at Universitas Gadjah Mada**
  - Hackathon Team (Business Plan Role)
- **Business Plan Competition 2024 at Universitas Jendral Soedirman**
  - Business Case Team
- **Technoscape 2025 Hackathon**
  - Hackathon Team
- **Informatics Festival 2025 at Universitas PGRI Semarang**
  - Web Development Team

ABOUT ME

I love doing and learning things based on my interests. Once i get into something, i will continously learn something new about it and that is what I am doing with AI right now. I am good at analyzing things and that makes me see everything on different perspectives. It is safe to say that I'm a logical thinker. I regularly make videos (talking in front of a camera) and that gives me a good public speaking skills.
